

# MARATHON

## Half Day tour

Proposal for a day trip to **Marathon**.

One of the most historic municipalities of Attica with lots of places of interest and activities for the whole family.

Our suggestions include visits to archaeological sites with the main theme being the Battle of Marathon such as the Marathon Tomb and the archaeological museum of the area. Also, in combination with an idyllic stroll on the beach of Nea Makri you can enjoy your coffee, snack or drink just a few meters from the Sanctuary of the Egyptian Gods.

For those who love sports, a visit to the Athens Marathon starting point is a must, as is the walk to the Marathon Road Museum. Finally, we would not miss the view from the Marathon Dam ideal for starting or completing our trek.

Marathon in general and the wider area offer several options depending on the gastronomic preferences of the guests. The excursion is recommended as a nearby destination without the hassle of making the long journey so that the visitor can enjoy the comfort of the day as much as he or she wishes. Just 45 minutes from the center of Athens. Minimum duration of 4-5 hours.
